### **INVENTA-FISCHER AG successful in Spanien**

The Engineering Company INVENTA-FISCHER AG (formerly EMS-INVENTA AG) - a member of the EMS-group which is a market leader in the field of performance polymers, fine chemicals and engineering - has been awarded a contract from Spain.

The contract covers a plant for the production of Nylon-6 chips, having a total yearly capacity of over 14'000 tons. INVENTA-FISCHER AG will deliver this plant turn key, i.e. design, delivery of equipment, erection and start-up. The technology of INVENTA-FISCHER AG will apply.

The contract has been awarded by NUREL S.A., Zaragoza. Start-up of the production is scheduled for the end of 2001.
