ORDER FOR INVENTA-FISCHER from China

The Engineering Company INVENTA-FISCHER – a member of the EMS-group - was awarded a new contract from China.

Within the terms of the contract, INVENTA-FISCHER will design the plant, provide the technology, perform the engineering work, supply the process equipment and delegate its specialists for the supervision of the erection work and the commissioning. The contract value is estimated at over CHF 20.0 mio.

The plant - to be built and operated by Jiangsu Godsheep Chemical Fiber Co. Ltd. in Yangjian Town, Wuxi, Jiangsu Province - will be designed for an annual capacity of over 210'000 tons Polyesterchips and melt (4 reactor design) for textile purposes. Start-up is scheduled for the end of 2004.

INVENTA-FISCHER has already delivered more than 65 industrial plants to China.
