ORDER for INVENTA-FISCHER from China

The Engineering Company INVENTA-FISCHER – a member of the EMS-group – could conclude a further contract in China.

INVENTA-FISCHER will perform the design and engineering work for a plant to produce Polyester melt and chips, having a capacity of 480'000 tons annually.

INVENTA-FISCHER will also provide the technology and will supply the relevant process equipment.

The plant will be operated by Jiangsu Senjo Chemical Fiber Co., Ltd. at Taicang City in the Jiangsu Province.

The project value amounts to CHF 70 mio. Start of production is scheduled for the beginning of 2005.

INVENTA-FISCHER has hitherto delivered more than 70 industrial plants to China.
